

Category:LRF cars

From LFS Manual

[Jump to navigation](#)[Jump to search](#)

LRF stands for **LX6**, **RaceAbout**, **FZ50**. Much like the TBO class, but a bit faster. All cars are rear-wheel-driven. The featured cars are very different in terms of horsepower and weight. All are in the range of 250-310 bhp/ton. Some favour acceleration and handling while others top speed.
