

# Blackwood

From LFS Manual  
Jump to navigationJump to search

The **Blackwood** circuit has two road courses and one rallycross course (plus reversed directions), situated in England's countryside. Blackwood is known for its versatility, because it contains a bit of everything.

Blackwood has been revamped thrice in the history of LFS - once at the start of S2 (0.5P), once for 0.5Y and once again for version 0.6R. The S2 version added a better pit lane and removed some rather large bumps, and 0.5Y made more improvements to the facilities and tightening the chicane. Version 0.6R revamped the whole Blackwood environment.

## Configurations

Short name	BL
Track type	permanent circuit
License	demo
Introduced	0.04k
Last updated	0.6R
Resemblance	fictional
Weather types	clear day cloudy afternoon cloudy sunset
Pit lane speed limit	80 km/h (50 mph)
Configurations	4

### GP Track

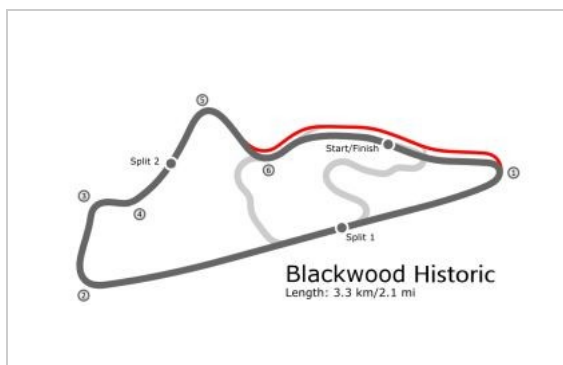

Short name	BL1
Length	3.297 km (2.049 mi)
Direction	 Clockwise
Turns	7

### GP Track (BL1)

Length: 3.3 km (2.1 mi)

Although after the first two revamps the characteristic tight chicane of the original turned into a long wide one, it's still Blackwood. Besides this chicane, the tight hairpin (first turn), the long straight, and the esses in the back of the track are defining the look and feel of Blackwood.

### Historic (BL2)

Length: 3.3 km (2.1 mi)

The same track as GP Track, but without the chicane after turn 1.

**Surface types** asphalt (100%)

**Grid size** 40

**Reversed option** ☒ Yes

#### Historic

**Short name** BL2

**Length** 3.294 km (2.047 mi)

**Direction** Clockwise

**Turns** 6

**Surface types** asphalt (100%)

**Grid size** 40

**Reversed option** ☒ Yes

#### Rallycross

**Short name** BL3

**Length** 1.838 km (1.142 mi)

**Direction** Clockwise

**Turns** 7

**Surface types** asphalt (50%)  
mud (50%)

**Grid size** 40

**Reversed option** ☒ Yes

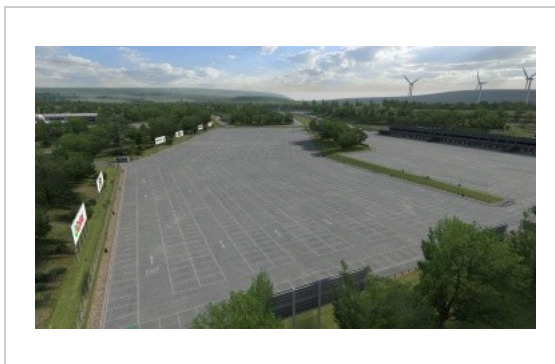

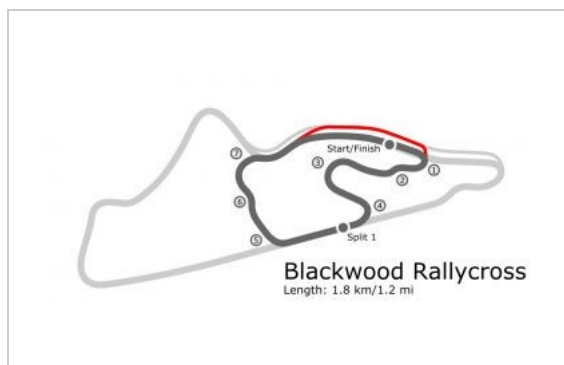

#### Car Park

**Short name** BL4

**Surface types** asphalt (100%)

**Grid size** 40

### Rallycross (BL3)

Length: 1.8 km (1.1 mi)

This track is very wide and is ideal for rallycross races, with cars lining up three abreast on the starting grid. It has plenty of overtaking spots. The difficult parts of this track are the small hills and bumps in the mud-sections - watch your suspension and clutch. Keeping the car stable is your main task. 50% tarmac, 50% mud.

### Car Park (BL4)

Length: N/A

A big parking lot. A good location to create your own autocross track or learn parking.

## Surrounding area

On open layouts the environment beyond the the race track is accessible. The parking areas, access roads and other asphalt or grass areas can be used to build new routes or autocross courses. This is explained on the page about autocross.

## Trivia

- There are hidden objects inside the toilets located in the back of the pit lane building ([https://upload.lfsmanual.net/wiki/File:Blackwood\\_hidden\\_toilet\\_location.jpg](https://upload.lfsmanual.net/wiki/File:Blackwood_hidden_toilet_location.jpg)). There are three buckets in the ladies room ([https://upload.lfsmanual.net/wiki/File:Blackwood\\_hidden\\_toilet\\_buckets.jpg](https://upload.lfsmanual.net/wiki/File:Blackwood_hidden_toilet_buckets.jpg)) and a portable toilet in the gents room ([https://upload.lfsmanual.net/wiki/File:Blackwood\\_hidden\\_toilet.jpg](https://upload.lfsmanual.net/wiki/File:Blackwood_hidden_toilet.jpg)). This portable toilet can be seen in more places around the track. It has a sign with a text in Slovak saying "KANAL M. P. S. - PRENÁJOM A SERVIS MOBILNÝCH WC", which translates to "portable toilet rental and service". Kanal-MPS (<http://www.kanal-mps.sk/>) is a real company which used to have a branch EKOTOalety (<https://web.archive.org/web/20160620200048/http://www.ekotoalety.sk/?q=novinky/novy-model-mulltoa-65>) selling portable toilets.
